Duplicate sheets

Duplicate sheets enables you to create one, or multiple copies of the active sheet

Start duplicate sheets from the ribbon

- Add a suffix that will be used for the duplicated sheets. For instance if the name of the sheet is 'south elevation' and the suffix is test, each copy will be named 'south elevation test' followed by the nr. of a specific copy
- Enter the number of wanted copies (for instance 6)
- Select 'duplicate' 'duplicate with detailing' or 'duplicate as a dependant'
- Press OK

In this specific case, 6 copies will be generated, name of new sheets will be the original name, followed by suffix test

- + A305 - south elevation
- + A306 - west elevation
- + A307 - Print
- + A308 - site plan
- + A311 - south elevationtest1
- + A312 - south elevationtest2
- + A313 - south elevationtest3
- + A314 - south elevationtest4
- + A315 - south elevationtest5
- + **A316 - south elevationtest6**
